Grain de Sail was born in 2010, in Morlaix, Brittany, when two enterprising brothers had the idea of transporting freight to and from the Americas with a specially designed cargo sailboat, thus keeping carbon emissions to an absolute minimum. From South America the boat brings cocoa and green coffee to Brittany, where the cocoa is transformed into a line of organic bars. The next stop is New York City, to unload a precious cargo of chocolates and wine. And then the boat heads back to South America for more cocoa and coffee, and the wonderful adventure begins again.
